# Animated Lozenge

5 examples

## Examples:

5 Box 300/300 pixel

**Actions:** Animation on hover + Button.

**Add the Symbol:** If you drag the symbol in the scene cancel the "Timeline Action" created by Hype in the Main Timeline.

The symbol will start automatically with the mouse over.

**Elements:** Hype© code only

**Project complexity:** Easy

**External Javascript:** NO

**External Resources:** YES 5 images (one image for each box)

## Tested on Desktop Browsers

Firefox, Chrome, Safari, Opera, Internet Explorer: 9 /10/11

**Mobile:** *Android:* firefox, Chrome, Opera / *Apple:* Chrome, Safari

Partial support for CSS3 transform Property: Internet Explorer 8/9

## Customization:

- **Replace images:** easy

Edit original images with an external image editor.

Retina images:

Make sure to replace also the “@2x” version in the inspector panel.

- **Edit the Size of the Box:** be careful

in some cases the animation has multiple objects with rotation with different coordinates of the "transform origin". Be careful if you change the size.
